REGION I

J.F. KENNEDY FEDERAL BUILDING, BOSTON, MASSACHUSETTS 02203-2211

SDMS DocID 587446

December 20, 1990

Mr. John Sullivan  
33 Chartley Brook Lane  
Attleboro, MA 02703

Dear Mr. Sullivan:

As you requested during our last telephone conversation, I enclose a copy of the Site Inspection report for the Texas Instruments property located in Attleboro, MA (MAD007325814). This report was prepared by the State Department of Environmental Protection as part of their Multi-Site Cooperative Agreement with the EPA.

Based upon the information in the Site Inspection report, and the information that you have provided to EPA, the Texas Instruments site has been recommended for continued investigation under the Superfund program. The next step in the Site Assessment process will be to score the site using the revised Hazard Ranking System (HRS) model. At this time, however, no schedule has been set for when the Texas Instruments site will be scored.

If you have any questions or comments, I may be reached at (617) 573-9697.

Sincerely,

Nancy Smith  
MA Site Assessment Coordinator
